

ICIITCEE-2023
BNM Institute of Technology, Bengaluru
27th-28th Jan 2023

******* Special Session Proposal *******

TITLE OF THE SESSION

The Problem statements and solutions in Emerging fields by Neural Network Applications

SESSION ORGANIZERS:

¹ Dr. Srikanta Kumar Mohapatra, ² Dr. Abhineet Anand

^{1,2} Chitkara University Institute of Engineering and Technology, Chitkara University , Punjab

OBJECTIVE OF THE SPECIAL SESSION:

AIMS AND SCOPE : *In the current era, recent developments in the fields of intelligent computing using different emerging applications like AI, ML, DL, Blockchain, IoT, Cloud, etc and communication have paved the way for the handling of current and upcoming problems and brought about significant technological advancements.*

This special Session is aiming to gather information from scientists, engineers and researchers with interest in research and application in different emerging technologies like Machine Learning, Artificial Intelligence, BigData analytics etc. as well as different applications of IoT. Computational techniques are in booming era in different field like Agriculture, Industry or in Medicine. In each and every field now researchers are developing new technologies to get the optimal solution with different roadmaps. Also unmanned systems are amalgam of IoT and soft computing techniques. In this special session the focus of our group is especially on the proposed theme of Computational Techniques in different emerging fields.

The current theme of this track is to take the submissions in the following areas but not limited to:

TOPICS OF THE SPECIAL SESSION:

- Machine Learning and its applications in different sectors
- Artificial Intelligence in Current Trades
- BlockChain technology in general areas as well as in finance
- Cloud and Mobile Communication
- Big data implementation
- Networking Management
- IOT in emerging field
